Mohamed Fares

Full Stack Developer

mf7059708@gmail.com 01156654953 Al Sheikh Zayed Portfolio

Profile

Passionate **Full-Stack Developer** specialized in the **MEAN stack** (MongoDB, Express.js, Angular, Node.js).
Experienced in designing and developing scalable web applications across diverse domains — including e-commerce platforms, portfolio systems, and admin dashboards — with a **focus on** clean architecture and user-centric design.
Strong foundation in both frontend and backend development, with skills in REST APIs, database design, and clean code practices.
Eager to contribute to innovative projects, deliver business-oriented solutions, and grow within a collaborative team environment.

Skills

Frontend
- Angular (v20), TypeScript, JavaScript (ES6+)
- HTML5, CSS3, SCSS, Bootstrap, Responsive Design

Backend
- Node.js, Express.js
- RESTful APIs, Authentication (JWT, OAuth)

Database
- MongoDB, Mongoose
- SQL and NoSQL
- Database Design & Optimization

Tools & Workflow
- Git & GitHub, Git Bash
- Postman / Thunder Client
- Agile & Scrum, Jira/Trello
- Deployment (Heroku, GitHub Pages)

Professional Experience

Full-Stack Developer (MEAN Stack), *Freelance / Personal Projects* 2024 – Present
Al-Muhandisin

- Designed and developed **scalable web applications** using Angular, Node.js, Express.js, and MongoDB
- Built **E-commerce Platforms** (Smart E-commerce, Clothes E-commerce) with:

-Product & Category management (with sub-categories & brand references).
-Shopping cart with **soft-delete & restore flows**.
-Order handling (status updates: pending, shipped, delivered, canceled).
-Admin dashboards for full CRUD operations.

- Developed **Portfolio Platforms** (Static + Angular + Node.js) with:

-Editable dashboard (About, Projects, Services, Contact).
-Responsive design for mobile, tablet, and desktop.
-Contact forms integrated with **EmailJS** for Gmail notifications.

- Implemented **Authentication & Authorization**: JWT-based login, role-based access, and session handling.
- Optimized **MongoDB queries** with population for nested structures (products → categories → brands).
- Configured **Git/GitHub workflows**, managed environment variables, and tested APIs with Postman / Thunder Client.
- Deployed applications to **GitHub Pages** (frontend) and **Heroku / Node servers** (backend).

MEAN-Stack Developer Trainee, *National Telecommunication Institute (NTI)* 07/2025 – 09/2025
Al Dokki

- Completed intensive training program covering **Angular, Node.js, Express.js, MongoDB, and REST API development**.
- Worked on **capstone projects** under mentorship, applying industry standards in software engineering.
- Gained strong foundation in **Agile methodology, Git workflows, and debugging best practices**.

Education

Bachelor of Computer Science, *6 October university* 2022 – 2026
6 October - El-Hosary

- GPA: 3.5 / 4.0
- Specialized in **Software Engineering** with focus on web development and database systems.

MEAN Stack Training Program, *National Telecommunication Institute (NTI)* 07/2025 – 09/2025
Giza - Al Dokki

- Comprehensive training covering **Angular, Node.js, Express.js, MongoDB, hooks, testing, and performance optimization**.

UI/UX Design Certification, *ROUTE* 2024
Giza - Al Dokki

- Certified in **UI/UX principles, system design, and scalable product deployment**.

Projects

Smart E-Commerce Platform, 02/2025 – 04/2025
MEAN Stack (Angular, Node.js, Express.js, MongoDB)

- Developed a scalable e-commerce system with **product, category, sub-category, and brand management**.
- Implemented **shopping cart** with add/remove items, quantity updates, and **soft-delete & restore flows**.
- Designed **order management system** with multiple statuses (pending, shipped, delivered, canceled).
- Built **admin dashboard** for CRUD operations and real-time data visualization.

Clothes E-Commerce Platform, 05/2025 – 06/2025
MEAN Stack (Angular, Node.js, Express.js, MongoDB)

- Created a fully functional online store with **authentication, user roles, and payment simulation**.
- Enhanced UX with **responsive Angular Material UI** and optimized database queries with Mongoose.
- Integrated REST APIs for product search, filtering, and brand-based navigation.

Full-Stack Portfolio Website, *Angular + Node.js + MongoDB* 05/2025 – 05/2025

- Built a **dynamic personal portfolio** with an editable admin dashboard (About, Projects, Services, Contact).
- Integrated **EmailJS** for direct Gmail notifications through the contact form.

Designed responsive UI with modern CSS and animations for mobile and desktop

Static Portfolio Website, *HTML, CSS, JavaScript* 04/2025 – 04/2025

- Created a responsive **personal portfolio** highlighting education, projects, and contact sections.
- Implemented interactive UI with animations, gradient backgrounds, and mobile breakpoints.
